FOREWORD

This publication catalogs interim studies and reports required by laws passed by the 87th Legislature, including [Senate Bill 1](#) (the General Appropriations Act). It primarily covers studies resulting in a one-time report to the legislature, a member or committee thereof, or a legislative agency, but it also includes new ongoing reports submitted to those entities. It covers studies to be conducted by state agencies, joint legislative committees, and other state governmental entities but not studies by standing or special legislative committees conducted solely as a result of charges issued by the lieutenant governor and speaker of the house. It also does not include ongoing reports required by previously enacted study provisions that do not expire. The studies are organized broadly by subject area and, within each subject area, in bill order. For each study in the publication, the following information is provided:

Title—Because the title of the study is not specified in the legislation, the titles used in this publication are based on bill or resolution language.

Submitting Entity (in parentheses)—The name of the state agency or other entity required to submit a report on the study.

Legislation—The bill and specific section(s), article, or rider enacted by the 87th Legislature containing provisions requiring the study. If the entire bill relates to the study, a bill section is not specified. All bills were enacted during the regular session unless otherwise noted.

Description—A summary description of the study. In most cases, the submitting entity is required to conduct the study, but, if applicable, other participating entities are noted. Report requirements also are briefly described if addressed in the legislation.

Due Date(s)—The deadline(s) for submitting the required report(s). If no due date is specified, that is noted in this entry.

Recipient(s)—The persons or entities to whom the report must be submitted. If no recipients are specified, this entry is omitted.

Expiration Date—The date bill provisions or statutory provisions requiring the study expire. If no expiration date is specified, this entry is omitted.

Study to Determine the Cost-Effectiveness and Feasibility of Providing Certain Services to Medicaid Recipients Who Have Been Diagnosed with Diabetes (Health and Human Services Commission)

Legislation: [House Bill 2658](#), SECTION 10

Description: Subject to the availability of funds, study by the Health and Human Services Commission (HHSC) to determine the cost-effectiveness and feasibility of providing medical nutrition therapy services and certain diabetes self-management education and support services to Medicaid recipients who have been diagnosed with diabetes. If HHSC determines that providing one or both of these types of services would improve health outcomes for Medicaid recipients and lower Medicaid costs, HHSC must develop a program to provide the benefits and seek prior approval from the Legislative Budget Board before implementing the program.

Due Date: No specific due date stated

Study and Report on Medicaid Benefits and Services Not Provided in Texas Under the Medicaid Managed Care Model (Health and Human Services Commission)

Legislation: [House Bill 2658](#), SECTION 11

Description: Subject to the availability of funds, study by the Health and Human Services Commission (HHSC) to identify Medicaid benefits and services that are not provided in Texas under the Medicaid managed care model and to evaluate the feasibility, cost-effectiveness, and impact on Medicaid recipients of providing those identified benefits and services through that care model. The report must include a summary of the evaluation and a recommendation as to whether HHSC should implement the provision of the identified benefits and services through the Medicaid managed care model.

Due Date: Not later than December 1, 2022

Recipient: Legislature

Study and Report on Dually Eligible Individuals Who Are Enrolled in the Medicaid Managed Care Program (Health and Human Services Commission)

Legislation: [House Bill 2658](#), SECTION 12

Description: Subject to the availability of funds, study by the Health and Human Services Commission (HHSC) regarding individuals enrolled in the Medicaid managed care program who are dually eligible to receive health care benefits under both Medicaid and Medicare. The study must include an evaluation of the following:

- Medicare cost-sharing requirements for those enrolled individuals;
- the cost-effectiveness for a Medicaid managed care organization (MCO) to provide all Medicaid-eligible services not covered under Medicare and require cost-sharing for those services; and
- the impact on dually eligible individuals and Medicaid providers that would result from the implementation of an MCO providing, and requiring cost-sharing for, those services.

The report must include a summary of findings from the study and a recommendation as to whether HHSC should implement the provision of, and required cost-sharing for, those Medicaid-eligible services by a Medicaid MCO.

Due Date: Not later than September 1, 2022

Recipient: Legislature

Study and Report Assessing the Impact of Revising the Capitation Rate Setting Strategy Used to Cover Long-Term Care Services and Supports Under the STAR+PLUS Medicaid Managed Care Program
(Health and Human Services Commission)

Legislation: [House Bill 2658](#), SECTION 13

Description: Using existing resources, the Health and Human Services Commission must conduct a study to assess the impact of revising the capitation rate setting strategy used to cover long-term care services and supports provided to recipients under the STAR+PLUS Medicaid managed care program from a strategy based on the setting in which services are provided to a strategy based on a blended rate. The study must do the following:

- assess the potential impact using a blended capitation rate would have on recipients' choice of setting;
- include an actuarial analysis of the impact using a blended capitation rate would have on program spending; and
- consider the experience of other states that use a blended capitation rate to reimburse managed care organizations for the provision of long-term care services and supports under Medicaid.

The report must summarize the study's findings.

Evaluation and Report on STAR Health Psychiatric Rates (Health and Human Services Commission)

Legislation: [Senate Bill 1](#), Rider 32, Page II-58

Description: Evaluation by the Health and Human Services Commission (HHSC), in coordination with a work group comprised of stakeholders with knowledge of the foster care population and their behavioral health needs, of the rate methodology and payment rate for psychiatric services provided to children enrolled in STAR Health. The evaluation must examine whether the rate of reimbursement for psychiatric services under STAR Health:

- impacts access to psychiatric and other mental health services;
- impacts provider network requirements;
- contributes to psychiatrists leaving the program;
- contributes to the workforce shortages of psychiatrists within the program, considering rural and urban variations; or
- results in higher occurrence of potentially preventable events.

The report must contain HHSC's findings and recommendations to improve access to psychiatric and other mental health services provided by STAR Health and any recommendations for changes to the rate methodology and payment rate.

Due Date: Not later than September 1, 2022

TRANSPORTATION

Study and Report on the Impact of Certain Classifications of Motor Vehicle on Roads and Bridges in Texas (Texas Department of Transportation)

Legislation: [House Bill 2223](#)

Description: Study by the Texas Department of Transportation, in consultation with the Texas A&M Transportation Institute, The University of Texas Center for Transportation Research, and transportation industry representatives, on the impact on the roads and bridges in Texas by motor vehicles classified as passenger vehicles, commercial motor vehicles, and oversize or overweight vehicles. For each such vehicle classification, the study must determine the following:

- the number of vehicles that drive on Texas roads and bridges each year;
- the number of miles driven on Texas roads and bridges each year;
- the total revenue contribution from taxes and fees to the construction and maintenance of Texas roads and bridges;
- the financial impact due to costs associated with construction and maintenance of the roads and bridges in Texas and congestion on those roads and bridges; and
- whether and by what amount that total revenue contribution exceeds or falls short of that financial impact.

The study must also assess the overall economic benefits to the state economy of commercial motor vehicles and oversize or overweight vehicles and recommend one or more changes to existing tax or fee structures to ensure that vehicles of each studied classification contribute revenue to fund the construction and maintenance of the roads and bridges in Texas in an amount at least equal to the financial impact of the vehicles of that classification on those roads and bridges. The report must contain the study's findings and recommendations for policy and statutory changes, including any proposed legislation, based on those results.
